Activity Pertemuan 4

Nama: Bryant Sulthan Nugroho

NPM: 50423286

Kelas: 1IA03

Materi: Routing pada Flask

Mata Praktikum: Algoritma Pemrograman 2B

Code

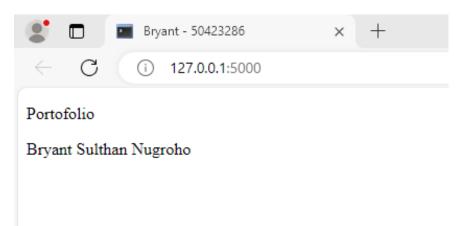

route_50423286.py

```
🥏 route_50423286.py 1, U 🗙 🥫 index.html U
pert4_50423286 > 🐡 route_50423286.py >
      from flask import Flask, render_template
      app = Flask(__name__)
      @app.route('/')
      def hello_world():
        return render_template('index.html')
      @app.route('/about')
     def about():
       return 'This is the about page'
     @app.route('/hello/<name>')
     def hello_name(name):
       return f'Hello {name}'
      @app.route('/rev/<int:postID>')
      def show_blog(postID):
      return f'Blog Number {postID}'
      @app.route('/rev/<float:revNo>')
      def revision(revNo):
        return f'Revision Number {revNo}'
      if __name__ == '__main__':
       app.run(debug=True)
```

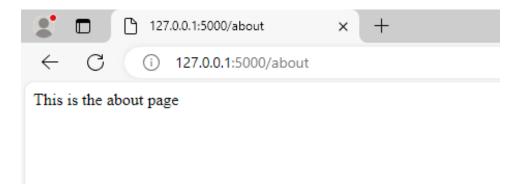

Templates/index.html

Output

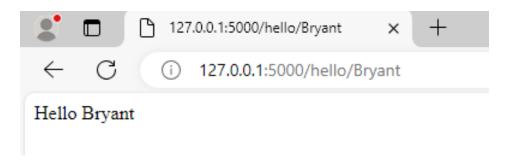

Route('/')

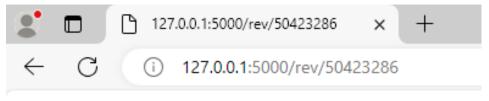

Route('/about')

Route('hello/<name>')

Route('/rev/<int:postID>')

Blog Number 50423286

Route('/rev/<float:revNo>')
